Projects

Yearbook (x2)   Adobe Photoshop
Led a team of 4 designers and cooperated with the photography and writing team to produce an award winning yearbook two years in a row.
-Promoted to Editor of Design on the second year
-Designed covers and end pages
-Created graphics and design for multiple pages

Pixelate Project (TTP Program)   React.js/Javascript/HTML/CSS
Worked with a group of TTP students to create a website which displays a grid structure that can be manipulated.
-Implemented the add column functionality
-Implemented the remove column functionality
-Deployed react app onto github
Deployed Link: http://saarhaber.github.io/Pixelate

vPay Project (TTP Program Capstone)   React.js/Javascript/HTML/CSS/Express
Worked with a group of four TTP students to create a full-stack application that allows users to register and upload a receipt and assign each order to a person. The orders assigned can then be paid through PayPal by the respective person who ordered, to pay the original receipt owner.
-Designed and implemented register, login, home , access denied, and assign orders page
-Created logos and graphics for the login/register page and home page
-Implemented the drag and droppable feature within the assign orders page
